### How to Heal Skin-Diseases

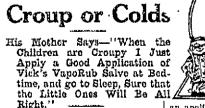

A Baltimore doctor suggests this simple, but reliable and inexpensive, home treatment for people suffering with eczema, ring simple, but reliable and inexpensive, home treatment for people suffering with eczema, ring, worm, rashes and similar itching, hurning skin troubles.

At any reliable druggist's get a jar of resinol cintment and a cake of resinol son, These are not at all expensive. With the resinol son and warm water bathe the affected parts thoroughly, until they are free from crusts and the skin is softened. Bry very gently, spread on a thin layer of the rusinol cintment, and cover with a light bandage—if necessary to protect the clothing. This should be done twice a day Usually the itching and burning stop with the first treatment and the skin soon becomes cle and healthy again.

Almost any soap will clean the skin and hair. But those who want a soap which not only cleanses but actually helps the complexion and hair are wise to choose resinol soap.

with mert, have their striftes and differences quitte as sharply drawn and ag stoutly manatalized as do the 'factions in the foll parties.

I have now attention is drawn to this rommon faility in human organizations by the attitude of the two wings of the Suffragist. The members of time, known in the Congressiona Unionists, are committed to securing required as a fine state of the control of the state of the control of the

Is a challenge to the wise and skills fall leadership of the Suffragists as a body. In the old part es a leader's ability is most frequently determined by the tast and cleverness with which he can heat all party breaches, coment all factions into a harmon, and the state of the fall party breaches, coment all factions into a harmon, and the state of the fall party breaches and letters the condition of the fall party breaches.

Does It Pay to Raise Boys?

which he can heat all party breaches, coment all factoons into a harmonous whole and infuse the rank and file with zeal and enthusiasm for the party ticket.

To compromise the differences hereaches and the National Suffrasists, to the extent that the membership will realize that now is the time for all good women to come to the aid of their party, will be an achievement worthy of the name and will show to the log parties that while they may be adept through long practice, they may yet have much to learn from the notices in the political game.

MIAT A DOLLAR SUS.

That our prosperly is not all that it appears to be finds ao more eloquent proof than in the government statistics showing the purchasing power of a dollar. Even if money is one in free circulation, wages high and work plentiful, these advantages are more than offset by the higher prices which must be paid for every article of theman, and, making it an increasing difficult problem for the average wage sarner to provide the bare necessities for the family.

Proof of Democratic "Prasperity."

Bells verant Entance data data is a face. The administrative deating and heart in the best care in the bost law were during that it is a face. The administrative features of the 1939 law were the best ever drafted and should be retained.

REMBER-Comm Recells

Replication at the best ever drafted and should be retained.

REMBER-Comm Recells

Ry Howard L. Rann.

The cold bad room is a place where retained and the basis of 11,000 by the time they get away to the law and a super that would not prove more profitable?

If a boy turns out to be a cligaret from the order of the family has a place where any yet have much to learn from the investment to avoid work, it is a superior of the family has a face. The administrative death and a superior of the family has a face. The administrative death and the provide the bar and the remainded and the provide the bar and the provide and difficult problem for the average wage-earner to provide the bare necessities for his family.

The United States Bureau of Statis-ties recently prepared a table showing the quantity of the principal articles of food which could be bought for a dollar at different times during a term of years. The following, condensed from these statistics, shows how much a dollar would buy of the several commodities named in 1890, compared with

If We Can't Please You Don't Come Again

# Three More Days of New Year Clearance Sale

The bargains for the last three days will be in men's and boys' clothing. The feature of most Special Sales is price—the feature of this sale is merchandise. It also offers you the finest ready-for-service suits and overcoats that are made. At this season there are sales galore, reductions that look attractive on paper -but don't make the mistake of judging clothing by reductions. Judge the reductions by the clothes! The reductions in this semi-annual Clearance Sale are most liberal, because the original prices were substantially lower than was justified by the production cost to us. But it is the clothing that makes the reductions worth while. The feature of this sale is merchandise -fabrics which represent the handsomest accumulation of colorings and weaves of the season-Suit and Overcoat models that are the star performers in current styles-and workmanship which is the work of America's greatest tailoring talent. This great opportunity is not only for men, it is also for boys. But bear in mind it is a Clean-up Sale of winter weights, winter styles of new high class goods. If you are in need of clothing it is an opportunity that you should not miss. It is an occasion by which you can save lots of money.

# No Longer a Question of Price

Tuesday and Wednesday, the final clear up days of the month. Stock taking time is now at hand—all broken lots, odd sizes and left overs must go. Stocks have melted under the powerful price cuts of the past weeks and lots are naturally smaller, but so are prices-they are cut much deeper to take place of assortments. Prices mean little or nothing to us now, our chief concern is to rid the stocks of all oddments in each and every department. We feature here only a few of the extraordinary values.

# U.S.-LATIN-AMERICAN TRADE JUMPS HUNDREDS OF MILLIONS BECAUSE

THREE SESSIONS UNGED

Representative MoArthur's Bill Fixes Specific Dates on Which They Shall Meet.

FOR EACH CONGRESS

A bill designed to designate fixed dates upon which the congresses of the future shall meet in regular session has been introduced in the house by Representative C. N. McArthur of Oregon. The measure, which provides that there shall be three instead of two sessions cach congress, adjudates that they shall begin on the following dates: First.—The first Monday after the fourth day of March in the year following the election of members of the house of representatives. Second.—The first Monthy in October

Third.-The tirst Monday in Decem-

ber of the following year,

ber of the following year.

It is pointed out by Representative Mearthus that the valume of congressional business has attained such proportions that it has become a physical impossibility to do justice to all important measures in the short time now allowed for the two regular sessions. Ito believes that if his proposed measure is adopted that the time of members will be inuch more advantageously speat, and instead of being compelled to take a vacation for the first pelied to take a vacation for the first also months of their term members would be at work in the transaction of. public business except during a brief period in midsummer and that the present congestion of business in both houses would be avoided by the early consideration of much important legis

It is pointed out that during the sum-

ness the country would be the gainer in the matter of efficiency.

### CANDY FOR POLAR EXPEDITION nundsen Buys Six Hundred Pounds

to Last Six Years.

When Roald Amundsen, the explorer, left Chicago the other day for Washington it was apparent that the food supply on the expedition to the north pole upon which he is proparing to embark will consist of some-thing more than whale blubber and soup tublets.

Preparatory for the six years' absence in the arctic he purchased 600 pounds of candy and quantities of oth- of the surface of the earth is water er delicacies, including ripe olives, and practically a waste as far as pro-sweet pickles, pickled pigsfeet, dried duction of varieties of diet is concernfruits, auts and apple butter. ### Foderal Consus Burcau Issues First Birth Statistics.

Among Foreign Born Inhabitants of United States the Birth Rate le From 40 to 300 Per Cent Greater Than Among Natives—Negro Death Rate

Certain states containing a third of the country's population show a 78 per cent greater number of births thun deaths in 1015 in a survey just com-pleted by the federal census bureau. The statistics disclose that in the territory included in the investigation for-eign born parents gave birth to many more children than did the native born and that among the negro race the death rate is higher and the birth rate lower than among the white. The areas covered in the survey in-

cluded New England! New York, Fenr-sylvania, Michigan, Minnesota and the District of Columbia. The figures are the first federal birth statistics ever published, la the states given the birth rate was 24.0 a thousand and the death

rate 14 a thousand.
Without considering migration, the country's population at this rate was increasing 1.1 per cent annually. The lowest birth rate found was 21.1, in Maine, and the highest 28.7, in Connecticut and Massachusetts. The death rate ranged from 10.1 in Minnesota to 28.1 in New Hampshire. The greatest excess of birth over death-14.4 a thou sand—was in Minnesota, and the small-est—5.5 a thousand—was in Maine.

Births Among Alien Population. An astonishing preponderance of births is revealed among the foreign born population. In Connecticut, where in 1910 approximately 30 per cent of the population was foreign born, the children born of foreign parents comprised 63 per cent of the total. The ex-cesses of the birth rate among the for-eign born over the native born ranged

from 40 per cent in Minnesota to 300 per cent in Connecticut.
The infant mortality rate was 100 to a thousand births. This means that one could out of every ten born died before reaching the age of one The figures disclose that a high it in mortality rate did not necessarily accompany a high birth rate.

The statistics, compared with foreign tables, show that England, France, Belgium, Sweden and Switzerland before the war had a lower birth rate than the United States had in 1915 Countries with a higher rate were Germany, Austria, Russia, Italy, Spain, Denmark, Holland, Japan and Austra

### A SYNTHETIC SOUP.

Mineral Substitute For Consom Boeuf invented by Chemist.

Science is hurrying to the rescue.

Along sanitary and military and mechanical lines it has made marrelous progress. In the culinary field it caves much to be desired. Now come a Philadelphia chemist and offers man-kind a mineral soup that is pronounced fully as nutritious as the tinest beef extract, says the Cleveland Leader. He told the Franklin institute the other night how the substitute is use

pared. It is a decidedly peculiar recipe and one that might well make the ordinary cookbook shudder. You take portions of sodium phosphate and cal-cium carbonate and ammonium sulhate..add a little sugar and a sma amount of yeast. These ingredients are mixed and set away until reaction by autolysis ensues, and a brown, sticky paste that has all the nutritive qualities of beef extract is produced.

According to the chemist, it is the east that transforms the inorganiminerals into the pronounced organic ment substitute. The yeast contains fermentative agents called enzymes,

which are responsible for the altera-tion and produce the food qualities from the chemicals.

Incidentally the chemist announced that the cost of this "soup," which he called synthetic ment, is less than that from the ox or sheep.

The Key.

Miss So-and-so was about sixty years old and still teaching school. It nine about that her class had to be accinated according to law. They ande a terrible fuss about it. "Oh, psiraw," said Miss So and so to hem, "that's nothing. Why, I've been accounted twenty-one times."

"Is that once every seven years, Miss So-and-so?" asked James from the Front row eagerly.

And then the class began to figure with their flugers in the air. Now York Post.

inexorable circumstances were suddenly to force you to face the alternative of faring forth into a night of bitter disgrace, carrying the odium of your father's shame, or of asserting your own innocence, thereby securing immunity from blame and censure, WHICH COURSE WOULD YOU FOLLOW? Read "Web of Steel" and learn what Bertram Meade did.

the man to whom you had given your heart and a promise of marriage were to be suddenly overtaken by an overwhelming disgrace, would your love prove strong enough to enable you to keep on believing in him, and working for the ultimate clearing of his name; or would you turn away when he offered to release you, concluding that your idol had feet of clay?—WHICH WOULD YOU DO? Read "Web of Steel" and learn what Helen Illingworth did.

an old servant is loyal to the memory of an indulgent master, who had aided him in a needed hour, does it justify his wilfully and obstinately withholding certain evidence which would clear an innocent man, in order to shield the reputation of his dead benefactor? Read "Web of Steel," and learn what old Shurtliffe did.

on what appeared to be conclusive testimony, you had utterly condemned a man and driven him from your presence, only subsequently to discover you had totally misjudged him, would you be big enough to eat humble pie and make every reparation in your power? Or would you wriggle out of a full atonement, justifying yourself as having acted in accord with the evidence and in perfectly good faith—EH? Read "Web of Steel," and learn what Colonel Illingworth did?

after climbing to the apex of one's profession, and coming to be regarded as the greatest living authority in his line, a man commit an error of judgement, which hurls him down from the pinnacle of achievement into the abyss of irretrievable ruin—WHAT WOULD BE HIS FEELINGS? Possibly you don't know. But read "Web of Steel," and learn how, in such a crisis, it fared with Meads, the great engineer.

cloudbursts and rising floods threatened almost certainly to sweep you and the work of your hands into sheer nothingness, would you seek a justifiable safety or would you dig in your toes and stick? HOW ABOUT IT? Read "Web, of Steel," and learn what Roberts and Vandeventer did at the building of the great dam.

### **OUR NEW SERIAL**

Watch for and Read the Opening Installment!

Hans was a kind bearted boy, and

he was sorry for the insect.

He Eroke the web so that the bee could fly away. It did not go far but perched on the branch of a tree. Hans was surprised to bear it speak. "Thank you, Hans," it said. "I am

I tell you you shall always have de-licious honey to cat and sell."

Then the bestold Haus to gather the

Then the best fold Hans to gather the seed of certain flowers that grew in the magic wood and plant them in his grandmother's garden.

The little boy took the seed home and planted them. When the magic flowers bloomed they were all yellow and gave off a delicious fragrance. Hosts

of bees swarmed to the gaiden and worked busily filling the hives with honey. When the queen came by one day in her carriage she stopped to look So delicious was the sweet that she ordered that it should be put up in golden pots for her own special use. The queen paid the little old lady so-much for this honey that the little boy's wish came true—his grandmother could have afforded a silk gown for every day in the week if she had cared

### QUICK RELIEF FROM CONSTIPATION

Get Dr. Edwards' Olive Tablets

Get Dr. Edwards' Olive Tablets

That is the Joylul cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for calomel.

Dr. Edwards, a practicing physician for 17 years and calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constitution and torpid livers.

Dr. Edwards' Olive Tablets do not contain calomel, but a healing, soothing vegetable laxative.

No griping is the "keynote" of these little sugar-coated, olive-colored tablets. They cause the bowels and liver to act normaliy. They never force them to unnatural action.

If you have a "dark brown mouth" now and chen—a bud breath—a dull, tired feeling—sick headache—torpid liver and are constituted, you'll find quick, sure and only pleasant results from one or two little Dr. Edwards' Olive Tablets at bedtime.

Thousands take one or two every night just to keep right. Try them.

### Sore Throat Don'ts.

When the children have sere threat, don't blister their necks with lamp oil. Don't torture them with a foul smelling nices of fat meat, wrapped about the neck. Don't imagine there is medical virtue in an oid sock or piece of red flannel. Don't believe, in artiquated superstitions.

A sore throat is a scrious matter and is not to be healed by such make-believe remedica. The use of such methods is simply putting the patient to needless torture. Use a little sore throat wradom and give them TONSILINE and the threat will be all quickly.

25 cents and 50 cents. Hospital Size \$1.00. All Druggists.
